

Multi-Purpose, Food-Grade, Lubricant and Penetrating Aerosol

Forms a barrier that prevents rust and corrosion of metals

- Clean, odourless, nonstaining formula
- Convenient aerosol application
- Made from pharmaceutical grade mineral oil
- Global NSF food safe registered product
- AQIS & NZFSA approved food grade lubricant

Description

Areas of Application

- Industries Requiring AQIS type A Lubricants
- Food Processing Plants
- Bottling Plants
- Dairy Plants
- Meat & Poultry Packing Plants
- Breweries
- Industrial Manufacturing
- Automotive Garages
- Steel Mills & Foundries
- Federal, State & Local Agencies

Features and Benefits

High performance lubrication. Excellent general purpose lubricant with optimum anti wear and adhesion characteristics. Provides excellent lubricity.

Resists rust, corrosion, & oxidation. Anti-wear and corrosion inhibitors extend the life of chain and cables. Helps reduce downtime, protects, and extend the life of costly equipment.

Produces a light lubricant film.

Clean lubrication — Colourless, odourless, and nonstaining.

Excellent food grade chain and cable lubricant quickly penetrates into chains, cables, and other hard to reach places. Ideal for food conveyor chains.

Protects from -20° C to 163°C*

*163°C represents high intermittent temperature limit. Equipment may require more frequent relubrication at elevated temperatures.

Suitable for use as a lubricant with incidental food contact in Federally inspected meat & poultry plants.

WARNING: Consult the label for full instructions and precautions before using this product.

Technical Specifications

Colour	Colourless
Appearance	Transparent
Odour	Odourless
VOC Content %	11.8
Vapour Density	1.7
Boiling Point	193°C
Specific Gravity	0.854
Flash Point COC	179°C
