

Advanced Drain Opener in Concentrated Powder Form

## Specifically Formulated to Quickly Clean and Maintain Problem Lines

- Fast acting
- Dissolves grease, hair, food and other organic drain blockages in minutes.
- Restores and maintains free flowing drains
- Minimises costly and filthy mechanical drain line cleaning.
- Cost effective
- Safe to use and will not harm pipes and fixtures
- Eliminates foul odours
- Prevents future backups when used in a regular maintenance program

## Description

### Areas of Application

- Hospitals
- Restaurants
- Municipalities
- Hotels
- Schools
- Cafeterias
- Food processing
- Manufacturing
- Office Buildings
- Agriculture

## Features and Benefits

Rescue drain rapidly eliminates backups, the source of foul odours and costly mechanical cleaning. Powerful active chemicals liquefy greases, fats oil, hair, and soap scum to ensure free flowing drains.

Generates heat up to 60°C to flush away tough clogs, but heat levels remain low enough to guard against pipe damage.

Converts waste buildup into an environmentally safe soapy solution that is carried out of the drain line system in a process called saponification

Safe to use on decorative steel and chrome fixtures.

Powdered formula minimises employee risk of splashback exposure. Caustic reaction is complete after ten minutes, making it safe to return to work.

When used in a regular maintenance program, Rescue Drain will economically return your pipes to full capacity.

**WARNING:** Consult the label for full instructions and precautions before using this product.
