

Lubricant non-flammable, noncorrosive and nonstaining

Uniquely non-flammable noncorrosive and nonstaining

- Protects against bonding or build-up of paint, wax, ink or adhesives
- Excellent mould release agent for plastic and rubber materials
- Protects and preserves leather, vinyl, rubber and plastic
- May be used in food processing equipment

Description

Areas of Application

- Switches and breakers
- Volume controls
- Terminals
- Moulds
- Fan belts
- Drawers and latches
- Rubber moulding
- Rubber mounts

Precautions

Do not apply PS-70 Extra directly on electrical parts.
Do not use in areas where painting is done.
Spot test on sensitive plastic surfaces before application.

Features and Benefits

Cleans, lubricates and protects electrical and electronic parts, preventing sticking and wear on surfaces.

Forms a protective coating on surfaces, leaving all treated areas waterproof and free from moisture.

Heat-stable for all applications and is effective within a wide range of temperatures from -21°C up to 260°C

Noncorrosive and safe for use on metals, rubber, leather, vinyl and most plastics. It is colourless and nonstaining so liberal applications will not damage equipment appearance.

Approved by the Australian Quarantine Inspection Service (AQIS) #5560 as a Lubricant Type A.

WARNING: Consult the label for full instructions and precautions before using this product.

Technical Specifications	
Contains	Dimethylpolysiloxane (Ensures quick evaporation)
Flashpoint	30,000 Volts
Colour	None
Appearance when dry	Non glossy
