

Unclogs and Maintains Sewer Lines without Harming Lines

Synergised chemical formula that cleans your sewer lines without explosion hazard

- Non burning and non explosive
- Trace colour to see results

Description

Directions

Pour the recommended doses of ND-66 in sewer line drains where accumulations of organic matter clog drainage facilities.

Features and Benefits

When in use, many standard sewer solvents emit vapours that can be highly flammable. This presents the danger of fire and explosion. With new ND-66, your employees and installations are protected from this danger. ND-66 vapours are **NONCOMBUSTIBLE**.

ND-66 purposely is coloured for your convenience. This enables you to check its effectiveness at later intervals by observing colour traces in other areas of your system.

Synergised chemical formula that cleans your sewer lines without explosion hazard.

Dissolves grease and oil fast.

Contains a high concentration of active chemicals and metallic chips.

Loosens and removes debris and sediment in sewers and drains. **Deep penetration dissolves the toughest obstacles.**

Powerful – does the job when old-style compounds fail.

Deep penetration dissolves the toughest obstacles.

Produces even heat over a longer period of time and attacks stoppages farther down the line.

WARNING: Consult the label for full instructions and precautions before using this product.
